

NATO PARLIAMENTARY ASSEMBLY

ABRIDGED VERSION OF THE FINANCIAL STATEMENTS

FOR THE YEAR ENDING 31st DECEMBER 2014

AUDITED

ADOPTED BY THE PLENARY ASSEMBLY ON MONDAY 18 MAY 2015

ACCOUNTING POLICIES

Note 1: The Organisation

The NATO Parliamentary Assembly (NATO PA) is a forum of parliamentarians from NATO member nations and associates and partner countries. It brings together European and North American legislators to debate and discuss issues of common interest and concern. The Assembly is entirely independent of NATO.

The Assembly's governing body is the Standing Committee, which is composed of the Head of each member delegation, the President, the Vice-Presidents, the Treasurer and the Secretary General. The International Secretariat under its Secretary General is responsible for all administration and the bulk of research and analysis that supports the Assembly's Committees, Sub-Committees and other groups.

Note 2: Significant Accounting Policies: the accounts are held on accrual and cash basis with no carry forwards.

Revenue Recognition: Calls for contributions from member countries are recorded in the same year as the budgets they relate to. Contributions received in advance, which relate to future budget years, are reported as year-end liabilities.

Expenditure Recognition: Expenditure is matched to the year in which the goods or services are received. However, some flexibility is applied over the year-end period to also include items where the goods have been ordered prior to year-end but shipments could not be received until the following month. All budgetary commitments are cancelled one month after year-end if goods have not been received.

Reserves and Provisions: Excess funds on hand at the end of a fiscal year belong to the contributors but are made available to the Assembly to cover expenses which may need to be met at an unknown future date. Each year, the Standing Committee, after considering the Treasurer's proposals, decides on the specific conditions governing how these reserves and provisions may be utilised in the future. Within that framework, management is granted advance permission to transfer these amounts to the budget and incur the expenditure. A separate financial statement summarising reserve fund and provision activity is prepared each year.

One special type of provision relates to voluntary contributions where donors have attached specific conditions as to what types of activities are to be funded. In these cases, the contribution is accounted for as being repayable to the contributor until the conditions relating to the expenditure are met.

Foreign Currency Translation: Foreign currency transactions are initially recorded in the accounts using NATO's official exchange rates. At year-end, all assets and liabilities denominated in foreign currencies are translated to Euros at official year-end rates. Exchange differences, both realised and unrealised, are recognised as current year income or expenditure.

Cash and Investments: Investments are comprised of operating bank accounts and short term deposits. Interest earned but not yet received at year-end is accrued and reported as current year income.

Property Plant and Equipment: Capital purchases are expensed to the budget in the year in which they occur. Listings of fixed assets are maintained, however, for insurance and internal control purposes.

Note 3: Property Plant and Equipment

Fixed assets owned by the Assembly are composed primarily of the following: the headquarters building, furniture, equipment, and 1 official vehicle.

The Assembly's headquarters, located on the Petit Sablon in Brussels, Belgium, was purchased in 1989 for Euro 1,549,334. Since that time, various renovations have taken place, which have significantly increased the amount of usable office space.

Statement of Financial Position at 31st December 2014

ASSETS			LIABILITIES
